“Raising Campus Awareness”

There are two important elements in creating and maintaining protective programs and systems: an understanding by students and employees of campus crime and safety hazards, and as methods of communication and action to reduce or eliminate security and safety threats and hazards. To encourage campus safety, each month, the Public Safety Office of North Miami Beach will release important safety tips, news, and information on FIN.

Please remember that employees are required to wear their NSU IDs at all times. To obtain your NSU Shark ID Card, visit the University Center at the Main Campus in Davie. If you prefer, you can complete the form found at: http://www.nova.edu/nsucard/apply/, include a passport size photo and interoffice it to the NSU Card Office.

A key element of campus crime prevention is student, faculty, and staff awareness and participation to actively help ensure that our campuses remain safe for all. As members of the university community, each of us has a role in keeping our campus safe! You can reach NMB Public Safety at EXT. 28998.

Brought to you by your Public Safety Office of North Miami Beach
